Art Unit 2736

1. The following is an examiner's statement of reasons for allowance:

Applicant argues that there is no "inherent" teaching in either Creek et al or Sallen et al of the parent unit "de-activating" the child unit. This argument is persuasive because although the child unit requires an "identity code" (Creek et al) or a "digital signature" (Sallen et al) to respond to a parent unit, whereby a parent unit can control which child unit responds to its interrogation, the child unit is not literally "de-activated" because it would still respond to the same "identity code" or "digital signature" from a different parent unit or other electromagnetic signalling device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
